STRETCHING ROUTINES
Everyday Activities

These are stretching routines that can help you in dealing with the muscular tension and tightness of everyday life. There are routines for different age groups, different body parts, different occupations and activities, as well as stretches to do spontaneously at odd moments throughout the day. Once you learn how to stretch, you will be able to develop your own routines to suit your own particular needs.

When you first do the routines, you can look up the instructions for each stretch in the page numbers listed. After a while you will know how to stretch without looking at the instructions each time.

In the Morning
Approximately 4 Minutes

Start the day with some relaxed stretches so your body can function more naturally. Tight and stiff muscles will feel good from comfortable stretching. The first four stretches can be done in bed before you get up. After arising and you’ve moved around a bit, do the next four stretches.
Before Bed
Approximately 3 Minutes

This is a great time to stretch every day. These stretches will relax your body and help you to sleep more soundly. Take your time, and feel the body parts being stretched. Stretch lightly, breathe deeply, and be relaxed.

1. 3–5 seconds, 3 times (page 28)

2. 3–5 seconds, 3 times (page 27)

3. 10 seconds (page 29)

4. Repeat #1 and #3 simultaneously.

6. 30 seconds (page 26)

7. 5–6 seconds, 3 times (page 30)
**Everyday Stretches**

*Approximately 8 Minutes*

Start with several minutes of walking. Then use these everyday stretches to fine-tune your muscles. This is a general routine that emphasizes stretching and relaxing the muscles most frequently used during normal day-to-day activities.

In the simple tasks of everyday living, we often use our body in strained or awkward ways, creating stress and tension. A kind of muscular *rigor mortis* sets in. If you can set aside 10 minutes every day for stretching, you will offset this accumulated tension so you can use your body with greater ease.

Stretches for the
Hands, Arms & Shoulders
Approximately 4 Minutes

This series of stretches works for repetitive stress problems in the hands and arms. Breathe naturally, stay comfortable, and be relaxed as you stretch.

1. 10 seconds 2 times (page 88)
2. 5–6 seconds 2 times (page 88)
3. Rotate 8–10 times each direction (page 88)
4. 10 seconds each position (page 88)
5. 3–5 seconds 3 times (page 46)
6. 5–6 seconds 2 times (page 28)
7. 5–10 seconds each side (page 92)
8. 15 seconds each arm (page 43)
9. 15 seconds each arm (page 47)
10. 20 seconds (page 45)
11. 10–15 seconds (page 47)
12. 15 seconds (page 46)
Stretches for the
Neck, Shoulders & Arms
Approximately 5 Minutes

Many people carry stress in their neck and shoulder area. This stretching routine will help with that problem. Do these stretches throughout the day. Breathe deeply and relax.
Stretches for the
**Legs, Groin & Hips**
*Approximately 7 Minutes*

Stretch comfortably after a light warm-up of walking in place or riding a stationary bike for 2–3 minutes. Remember to stretch with control as you gradually limber up. Relax and breathe rhythmically.

1. 15–20 seconds each leg (page 71)
2. 15–20 seconds each leg (page 75)
3. Hold for 20–30 seconds (page 55)
4. 10–15 seconds (page 54)
5. 10–15 seconds each leg (page 53)
6. 20–30 seconds (page 58)
7. 15–30 seconds each leg (page 35)
8. 10–15 seconds each leg (page 61)
9. 30 seconds each leg (page 53)
10. 10–20 seconds each leg (page 58)
11. 30 seconds (page 26)
12. 15–20 seconds each leg (page 36)
Stretches for
Lower Back Tension
Approximately 6 Minutes

These stretches are designed for the relief of muscular low back pain and are also good for relieving tension in the upper back, shoulders, and neck. For best results do them every night just before going to sleep. Hold only stretch tensions that feel good to you. Do not overstretch.

1. 10–12 seconds 2 times (page 46)
2. 15–20 seconds each leg (page 51)
3. 5–15 seconds 2 times (page 33)
4. 30 seconds (page 26)
5. 20–30 seconds each leg (page 63)
6. Contract 3–5 seconds, then relax 2 times (page 27)
7. Contract 5–8 seconds, then relax 2 times (page 29)
8. Rock gently back and forth 15–20 times (page 26)
9. 15–30 seconds each leg (page 32)
10. 10–15 seconds each leg (page 27)
11. 5 seconds 2 times (page 30)
12. 10–15 seconds 2 times (page 63)
Computer & Desk Stretches
Approximately 4 Minutes

Sitting at a computer for long periods often causes neck and shoulder stiffness and occasionally lower back pain. Do these stretches every hour or so throughout the day, or whenever you feel stiff. Photocopy this and keep it in a drawer. Also, be sure to get up and walk around the office whenever you think of it. You’ll feel better!

1. 10–20 seconds 2 times (page 90)
2. 10–15 seconds (page 46)
3. 8–10 seconds each side (page 46)
4. 15–20 seconds (page 46)
5. 3–5 seconds 3 times (page 46)
6. 10–12 seconds each arm (page 47)
7. 10 seconds (page 44)
8. 10 seconds (page 44)
9. 8–10 seconds each side (page 89)
10. 8–10 seconds each side (page 46)
11. 10–15 seconds 2 times (page 46)
12. Shake out hands 8–10 seconds (page 89)
Blue-Collar Stretches

Approximately 6 Minutes

Before you do any physical work—especially lifting—do some stretches. Stretching gives your muscles a signal they are about to be used, and a few minutes of stretching before starting work will make you feel better and help avoid injuries.

1. 10–20 times each foot (page 71)
2. 10–20 seconds each leg (page 71)
3. 5–10 seconds each leg (page 71)
4. 10 seconds each leg (page 73)
5. 10–15 seconds each leg (page 74)
6. 10–15 seconds each leg (page 74)
7. 3–5 seconds 2 times (page 46)
8. 3–5 seconds each side (page 46)
9. 20 seconds (page 45)
After
Sitting
Approximately 4 Minutes

This is a series of stretches to do after sitting for a long time. The sitting position causes the blood to pool in the lower legs and feet, the hamstring muscles to tighten up, and the back and neck muscles to become stiff and tight. These stretches will improve your circulation and loosen up those areas that are tense from a prolonged period of sitting.

1. Walk a bit for 2–3 minutes

2. 10–15 seconds 2 times (page 46)

3. Rotate each ankle 10–15 times (page 71)

4. 10 seconds (page 46)

5. 5 seconds 2 times (page 46)

6. 5 seconds 2 times (page 28)

7. 3–5 seconds each side (page 46)

8. 10 seconds each arm (page 44)

9. 15 seconds each arm (page 43)

10. 10–12 seconds each side (page 81)

11. 3–4 seconds (page 71)

12. 15–30 seconds each leg (page 71)
While Watching TV

Many people think they don't have enough time to stretch, yet watch several hours of television a night. Well, you can stretch as you watch TV. This will not interfere with your viewing and you will be accomplishing something during otherwise sedentary times.

1. 20–30 seconds (page 58)
2. 3–5 seconds 3 times (page 46)
3. 3–5 seconds each side (page 46)
4. 15 seconds (page 45)
5. 30–60 seconds each foot (page 34)
6. 10–20 times each foot (page 34)
7. 10–20 seconds each leg (page 35)
8. 10–25 seconds each leg (page 40)
9. 10–30 seconds (page 98)
10. 10–20 seconds (page 42)
11. 5–10 seconds each leg (page 50)
12. 10–20 seconds each leg (page 51)
Before and After
Walking
Approximately 5 Minutes

These stretches will make the movements of walking feel free and easy. Warm up by walking several minutes before stretching.

1. 20–30 seconds each leg (page 71)
2. 5–10 seconds each leg
3. 10–15 seconds each leg (page 75)
4. 20–30 seconds (page 55)
5. 10–15 seconds each leg (page 54)
6. 10 seconds each leg (page 53)
7. 10–15 seconds each leg (page 58)
8. 15–20 seconds each side (page 61)
9. 10–15 seconds each leg (page 39)
10. 10–20 seconds (page 47)
11. 8–10 seconds each side (page 44)
12. 5 seconds 2 times (page 46)
Traveler’s Stretches
Approximately 2 Minutes

Stretch at various times throughout your journey to help your body feel less stiff and tight.
# STRETCHING Routines

Sports and Activities

In this section are stretching routines for sports and activities, arranged in alphabetical order.

Each time you do a stretch for the first time, read the specific instructions for that stretch. (See the page reference under each stretch.) After you follow the instructions a few times, you'll know how to do each stretch correctly. From then on, simply look at the drawings.

Warming up: For the more vigorous sports (running, football, etc.), I recommend that you do a short warm-up before stretching (jogging for 3–5 minutes with an exaggerated arm swing, for example). See p. 14, Warming Up and Cooling Down.

To teachers and coaches: These routines can serve as guidelines. You can add or subtract stretches to meet specific needs and time allotments.

**Note:** Be sure to read How To Stretch on pp. 12–13 before you do these routines.
